Large size ice cooling board

Focusun Crystal Cube ice

Our cube ice machine units are made of stainless steel evaporator, which can freeze the purest water to make bright crystal cubes with a high water displacement and good profits. The quiet system of our cube ice makers is dependable, durable with long lifespan and as well energy-efficient. Our cubes allow liquids to flow over it more easily whether pouring from bottles or dispensers; therefore, there is no splashing and less waste. At the same time, we are the OEM partners of many famous brands in European and South African countries.
