

Nugget Ice Machine

Nugget Ice Machine

Nugget ice machines produce small, soft morsels of ice as opposed to solid cubes. Nugget ice stays cool longer and is generally great for soft drinks and blended beverages.

Focusun provides softer and more chewable texture of ice with maximal cooling affect. The nugget ice is easy to chew, yet hard enough to be dispensed without hand-scooping; 83% of ice to water ratio. Daily ice making capacities ranges from 220 lbs to 2,400 lbs.

Outstanding Features of this Nugget ice machine:

- Modern, special design, suitable for high temperature
- Hygienic, clean ice in unique form.
- High productivity, easy to operate and energy saving.
- Compact set, easy to transport and install.
- Clear dry ice for ice packaging industry
- Stainless steel shell and condenser of water cooling units
- Structural aluminum framework
- Fully assembled electrical control panel with starters, programmable controller
- Stainless steel water sump, auger and discharging chute
- Ice dimension is 12*12*16mm
- Copeland semi hermetic discus compressors

Technical Data of Nugget ice machine:

Model	Capacity	Power	Current	Water Capacity	Net Weight
FIN 220	220 lbs	390W	2.3A	4.2 L/H	78kg
FIN 290	290 lbs	480W	2.9A	5.8 L/H	80kg
FIN 780	780 lbs	1080W	4.9A	14.8 L/H	88kg
FIN1220	1220 lbs	1980W	6.9A	23.7 L/H	115kg
FIN1990	1990 lbs	3050W	11.8A	37.8 L/H	200kg

FIN2400	2400 lbs	3980W	13.8A	48 L/H	230kg
